MISCELLANY.

My Wife is The Cause of it.

It is not more than forty years ago that Mr. L. called at the house of Dr. B. one very cold morning, on his way to H——t. "Sir," said the doctor, "the weather is very frosty—will you not take something to drink before you start?"

In that day liquor was deemed indispensable to warm both for winter. When he commenced a journey, and at every stopping place along the road, the traveller always used intoxicating drinks to keep him warm.

"No," said Mr. L., "I never touch anything of the kind, and I will tell you the reason—my wife is the cause of it. I had been in the habit of meeting some of my neighbors every evening for the purpose of playing cards. We assembled at each other's shops, and liquors were introduced after a while. We met not so much for drinking, though I used to return home late in the evening more or less intoxicated. My wife always met me at the door affectionately, and when I chided her for sitting up so late for me, she kindly replied;

"I prefer doing so, for I cannot sleep when you are out."

This always troubled me. I wished in my heart she would begin to scold me, for then I could have retorted, and relieved my conscience. But she always met me with the same gentle and loving spirit.

Things passed on thus for some time, when I at once resolved that I would, by remaining late and returning much intoxicated, provoke her so much as to cause her to lecture me, when I meant to answer her with severity, and thus, by creating another issue between us, unburden my bosom of its present trouble.

I returned in such a plight about four o'clock in the morning. She met me at the door with her usual tenderness, and said—

"Come in, husband, I have just been making a warm fire for you, because I knew you would be cold. Take off your boots and warm your feet, and here is a cup of hot coffee."

"Doctor, that was too much. I could endure it no longer, and I resolved from that moment that I would never touch another drop as long as I lived, and I never will."

He never did. He lived and died practicing total abstinence from all intoxicating drinks, in a village where intemperance has raged as much as any other in the State. That man was my father, and the woman my mother. The facts above related I received from the doctor himself while on a visit to my village, not long since.

Effects of Sunday Dissipation.

"The Sabbath in Europe" is the title of a pamphlet just issued by the New York "Sabbath Committee," containing a narrative of the investigations of the Secretary, Mr. Cook, during a recent visit to Great Britain and the continent. The influence of a Paris Sunday on the health and morals of the people is thus sketched:

"What are its fruits? Are they not found in the thriftless condition of a vast *proletaire* population—living from hand to mouth—restless in spirit—ferocious in temper—kept from rebellion by a numerous soldiery, or quieted by government labor and food? May they not be seen in dwarfed stature, and pallid aspect, and wretched inefficiency of the laboring classes, and in the "Blue-Monday's records of employers or of the magistracy—the Sunday dissipation disenabling thousands from Monday's occupations, or sending them to prison? Can they not be traced in the general recension of private, commercial and political morals—whatever cover the refinement and high civilization of Parisian life may throw over the inconceivable iniquity of its social condition; in the loosening of conjugal bonds, the utter loss of a *home* idea, and of all the restraints and joys of home life; in the prevalence of godlessness, irreligion and infidelity, and in the ascendancy of civil and spiritual despotism."

Irresolution.

Irresolution is a habit which creeps upon its victim with a fatal facility. It is not vicious, but it leads to vice, and many a fine heart has paid the penalty of it at the scaffold. Trifling as it may appear in the wavering steps of the young, as it grows older its form changes to that of a hideous monster, which leads them to destruction with their eyes open. The idler, the spendthrift, the epicurean and the drunkard are among its victims. Perhaps in the latter its effect appears in the most hideous form. He knows that the goblet which he is about to drain is poison—yet he swallows it. He knows, for the example of thousands has pointed it in glowing colors, that it will deaden all his faculties, take strength from his limbs and the happiness from his heart, oppress him with foul disease, and hurry his progress to a dishonored grave, yet he drains it under a species of dreadful spell, like that by which small creatures are said to approach and leap into the jaws of the loathsome serpent whose fiendish eyes have fascinated them. How beautiful and manly the power by which the resolute man passes unmoved through the dangers.

A gentleman of nervous temperament once called on Dr. Dwight, President of Yale College. One of the Doctor's boys was boisterous, and pestered the nervous gentleman somewhat, whereupon he said to him: My boy, if you will keep still while I am talking to your father, I will give you a dollar." Instantly the boy hushed down as gentle as a sleeping lamb. At the close of the gentleman's remarks he attempted to leave without giving the boy the dollar; but Dr. Dwight was too fast for him. He put a dollar into the man's hands, saying, "You promised my boy a dollar for good behavior. Give him that as you promised. If sir, we lie, our children will be liars also.

In Cincinnati, says the N. O. *Delta*, they have large manufactories of old barrels to contain good old Madeira wine and brandies, that have made the circuit of the globe and land, for many years—amid dust and cobwebs, in some ancient cellar. The process is an extraordinary one. A new barrel, just from the cooper's, is hoisted to the upper stories; in a few moments it is returned to the lower floor, with the unmistakable evidences of great age—all stained, dusty, the *veritable* marks of the French and Spanish custom houses, and the imperial arms nearly worn off, and even cobwebs drawn across the bung.

In one respect, at least, we imagine Fanny Kemble (Butler) may be right. She probably is—nay, we are almost *sure* she is, provided she has not been misunderstood nor misrepresented. It is said, some ladies in New York, interested in the Washington-Everett fund movement, called on her a few days since, to solicit her to give one of her Shaksperean readings in behalf of their enterprise; when she declared it was a shame that the Congress of the United States should suffer such a noble cause as the purchase of the homestead and tomb of Washington to go a begging; when that "honorable body," acting in behalf of the American people, ought to have taken measures to purchase and protect the property in question long ago.

We cannot speak for others, but we can honestly say that the views so forcibly and plainly expressed by Mrs. Kemble Butler long since suggested themselves to our own mind; and we have often wondered why Congress did not *do* something about it. Reverence for the character and gratitude for the national services of Washington are presumed to be pretty nearly a universal sentiment among our countrymen; and we have been accustomed to think there was some reality and sincerity in the sentiment. The poet, the painter, the sculptor, the orator, have, for more than half a century, combined to set forth the image and excellencies of the great and good man; and what decent reason can be given why Congress should not give expression to the general feeling of respect and gratitude to the memory of so distinguished a benefactor?

If the Constitution would not justify an appropriation of the public money for such a purpose, would it be wholly impossible to amend it? But we do not know that it is held to be unconstitutional. Is there a deficiency of funds?—Surely there might be retrenchment enough, for a hundred objects of similar merit, if it were deemed desirable. Do the "*honorable gentlemen*" fear it would be setting a bad precedent, for the government to rescue and preserve the home and grave of the first President? They would do well perhaps, to apply this objection to many of their acts, where it might have great pertinency and force—but it can have little or none in this case.

The labors of Mr Everett and his coadjutors are not the less worthy because Congress has proved recreant to a high and patriotic duty. Indeed, those labors will perhaps, for that very reason, shine with a higher and purer lustre.

Personal

When Gen. Scott arrived in New Orleans, some one near him in the crowd which pressed around him at the St. Charles, asked permission to carry his overcoat for him. The General granted the request, and the person in carrying out his intentions in getting the coat in his possession, carried it entirely away, and the General has not heard of it since. In consequence, the General had to call upon a tailor the next day.

It is stated that Dr. O. W. Holmes has refused an offer from Mr. Bonner of $5,000 to write half a column weekly for one year for *The New-York Ledger*.

It having been stated "in the papers" that Horace Greeley was about to withdraw from the editorial chair of the *Tribune* to connect himself editorially with the *Century*, that gentleman, in a card published in the former paper, gives to the statement an emphatic denial.

Fires.

The Literary Hall, in Portsmouth, Va., was burned on Sunday morning, 16th. Loss $4000. The Ocean House was damaged to the amount of $1,500.

A large five-story brick building on Duane Street, New York, was destroyed by fire Monday night, 17th. Loss between $40,000 and $50,000.

At a spiritual circle in Greenfield, a three cent piece, a five cent piece, and an old-fashioned fourpence were thrown into the room through the window, without any visible or supposable human agency. It is supposed they came from an old grog-drinker, who left this sphere without squaring his score at the tavern.

LOCAL.

Newport Historical Society.—The regular monthly meeting of the Newport Historical Society was held at the Newport Reading Room on Touro Street, Tuesday evening at 7 1-2 o'clock.

An interesting and valuable historical paper on the streets of Newport, and on some of the ancient customs of the town was read by Benj. B. Howland, Esq. The remainder of the evening was passed in an animated discussion of aberrant points connected with our history. Among other topics suggested, was the necessity and expediency of obtaining Legislative aid for the purpurse of making a thorough exploration of the coal formations of the island.

The meeting adjourned to meet at the same place at 7 o'clock Friday evening, Feb. 18th.

Profitable Operation.—We learn that the par value of the shares of the Coddington Man'g Co. was originally $500. The loss, therefor, on each share is four hundred eighty-nine dollars and fifty cents. We saw one of the "fortunate" holders of the stock engaged yesterday in figuring up how long at that rate it would take him to arrive at the state of a millionaire.

Hercules 7's Lecture.

The 7th lecture of the course before Hercules Engine Company No. 7 and their friends, was delivered Tuesday evening by Mayor Cranston, at their hall on Howard Street. Their hall was filled with a respectable audience, three-fourths of whom were ladies, showing these to be friends to the firemen.

The lecture was on "The Dignity of Labor." The Mayor came in with his arm in a sling, having been suffering for several days past with an ugly felon on his finger which very unfortunately could not be "committed" like that other species who are sent to prison. The lecturer took the ground that all labor was honorable and idleness the opposite. Commencing with the Creation, where God, the Supreme Ruler of the Universe, "rested on the seventh day from all his work which he had made," thus setting an example of labor to his creatures and afterwards enjoining upon them "six days shalt thou labor," he followed the subject down through the periods of time, and showed what mighty and beneficial results had flown from man's obedience to this precept of the Almighty. The Lecture was rich in thought and expression and we regret that our limits will not permit us to report it more fully. The closing portion, however, we will give entire, as it fell from the speaker's lips, though beautiful as it is, it, of course, loses much of its force by the transfer. Said the speaker—

In conclusion, gentlemen of Hercules Engine Company No. 7, permit me to say that there is no labor which is so dignified, so noble and honorable, as that which you, in common with your fellow firemen, perform when the community is startled with that wild and terrible cry of "fire!" The labor which you then voluntarily perform, and the services which you so cheerfully render, are far more noble and satisfactory than those of the military chieftain, although he bravely defends his country's honor and protects its insulted dignity, because he wars against his fellow-man, and takes human life in those terrible conflicts which have at times occurred all over the world, from its earliest history. I admit that there is thrilling splendor in the field of battle, when thousands of men, with all the fearful and desolating munitions of war, boldly face each other and terribly struggle for the mastery,—especially so when the field of carnage is red with blood, and is covered with the lifeless bodies of men and horses, and the wide-scattered fragments of cannon-carriages and all the other implements of war. But, to me, there is more excitement, more honor, and more glory in the bloodless victories and the noble triumphs which the firemen achieve, when they extinguish a fearful conflagration, and thus save both human life and valuable property,—for theirs is a labor of love, and not of hatred and vengeance. You contend with a more fierce and devastating foe than the military do; in the scorching heat of summer, or the freezing winds of winter, at mid-day or in the darkness of night, when the alarm is given, and buildings are burning, and the inmates are endeavoring to save their lives, you firemen are promptly on the spot, and always render heroic service; and none are more zealous and faithful than the members of Hercules Company. Be always thus faithful in the discharge of all the various duties of life,

"Till the burning earth shall crumble,
Wrapt in flames of glaring fire;
Till the last great conflagration
Streams above a fallen world,
And this gorgeous, bright creation
Is in one wild ruin hurled.

The Hercules "boys" have a neat and tasty hall, elegantly fitted up, and among its "furniture" we were happy to observe a copy of the Holy Scriptures.

Personal.—We are happy to learn that the Rev. Dr. Jackson, who has been seriously ill for the last two weeks, has so far recovered his health that on Tuesday he was able to commence visiting the sick of his church. His looks gives evidence of the severity of the attack. We hope he will be permanently restored to health, and will long be continued to his affectionate church as a faithful minister of Jesus Christ.

A German physician, named Beck, at Dantzic, lately discovered a new antidote to drunkenness. It consists of a metallic substance, covered by an olive, which it is said, not only destroys the effects of alcohol instantly, but also prevents every further result on the constitution. Experiments had been made on a Polander, named Badevilde, who, being dead drunk, was perfectly sobered after eating three of those prepared olives.

The citizens in the town of Bloomington, in Douglas county, Ill., have recently passed an ordinance, entitling the women to an equality with the men, as voters.

A resolution came down from the Senate that all petitions received after the 7th day of February next, be continued until the May session of the General Assembly; which was read and passed in concurrence.

Mr. Wharton of Providence presented the petition of the Smithfield Lime Rock Bank for a change of name, which was received and referred to the Committee on Corporations.

On motion of Mr. Dexter Clark of Cumberland, the House then adjourned until Wednesday morning at ten o'clock.

Political.

Ex Gov. Walker and his Secretary, Stanton, of Kansas, have issued a card addressed to the people of the United States, in *The National Intelligencer*, in respect to the fraudulent Kansas election returns. But Jones, one of the Judges of the notorious Oxford precinct, has lately published a statement that he did not attach his name to the fraudulent Oxford returns, but that it was forged. Mr. Walker comments upon this fact as an illustration of the injustice done him by the Administration in censuring him for rejecting the Oxford fraud.

The Hon. Eli Thayer of Worcester, Mass District, is said to be in favor of the admission of Oregon. It is stated that other Republicans are disposed to vote with him, but their names have not been divulged.

An exchange, speaking of the treatment a police officer received from a drunken woman whom he was endeavoring to take to jail, says she kicked and called him a rascal as freely as if he had been her husband.

Crimes and Casualties.

The kernelling mills of the Gotham Powder Works, in Maine, containing 80 kegs of powder, blew up Saturday afternoon, 15th, killing Mr. David R. Jones.

A woman was frozen to death at Lawrence, Mass., Monday night.

There were twenty-four affrays in Cincinnati last year, in which death resulted.

John McGee and his wife, of Sandwich Canada, were recently arrested and fined for profane swearing.

A negro, named John Davis, was burned to death, in New Brunswick, N. J., on Sunday night.

There are now thirty-five persons confined for life in the Charlestown, Mass., State Prison. Over-one-third of these have committed the crime of murder.

There are now 760 convicts in the Auburn State Prison, a large majority of whom are young men, their ages varying from 18 to 30 years.

An Indian and a soldier were frozen to death near Fort Ridgley, Minnesota, on the 7th. They had been taking so much whisky that they neglected to go in, out of the cold.

A man named Lawrence Lalier, has recently been arrested at Prarie Du Chien, Wis., on his confession, that in 1856, he had murdered his wife, burned her remains and bribed the silence of a neighbor, who was aware of the crime, by deeding to him 40 acres of land.

DIED

In Providence, 17th instant, Isaac Newton, son of Israel and Clarissa A. Walker, aged 5 years.

In Providence, 16th instant, Mrs. Maria W. Burrill, wife of Charles B. Burrill, in the 43d year of her age.

In Rehoboth, 17th instant, Miss Betsey Rounds, in the 75th year of her age.

[Communicated.]

In Philadelphia, Dec. 30th, Mr. Edward W. Mumford, eldest son of the late Thos. H. Mumford, of this city, in the 47th year of his age.

Dear friend, how many weary mon ths
'Twas thine, to feel the slow decay—
The pain and langour that at last
Have worn thy precious life away.

But when the "flesh and heart" did fail,
Thy soul was filled with Heavenly calm,
Reposing with unflinching trust,
Upon the blessed Savior's arm.

With holy patience thou didst wait
The welcome message from the skies,
Bidding thee from the couch of pain
Triumphantly to glory rise.

Till near the last declining day,
When time sealed forth a mornful knell,
Thou didst take thy Heavenward flight,
And bid us, with the year, farewell.

Now, when with tearful eyes we meet,
Where once thy loving smile we saw,
We will think of thee in that bright land
Where pain and death are feared no more.

And we will strive to meet thee there,
Through Jesus' blood from sin set free,
And with the great redeemed host,
Join in the song of victory. E.

SCHOONER.

Joseph M. Houston, of Philadelphia, Russell, Mobile for Providence.

There is a rumor in town to-day, that a sloop from New York for Fall River, is ashore on the south-west side of Block Island, having gone on there during the foggy weather of last week. The only regular packet now running between Fall River and New York, is the sloop Isaac H. Borden. We shall probably get the truth of the matter from our Block Island correspondent on the arrival of the mail boat Thursday.

Barque Jane A. Bishop, which sailed 18th, returned same night on account of head wind, and is anchored in the outer harbor. Also schooner Brown Stone, Providence for New York returned from same cause.

Brig Morning Light, while beating out of the harbor in charge of a pilot, came in contact with schooner Justice, which has been laying the last three weeks with a cargo of coal for Narragansett Pier, and carried away the latter's jibboom. The Morning Light anchored and remains, waiting wind. She sustained no injury.

Schooner Minnesota, from Boston for Tangier, previously reported ashore on Goat Island, was got off this morning, 19th, and proceeded.

Sloop Congress, of this port, will, if the weather is favorable, proceed, 20th, to Narrow River with the necessary apparatus for getting off the schooner Samuel Gartner ashore at that point. We understand that the men at work discharging her cargo expected to finish up today, 19th. Should the weather prove favorable, there is little doubt but the schooner will be got afloat and brought to this port.

MEMORANDA.

At Havana, 8th inst., barque Martha Anna Babcock, for Boston; Saranac, N. C; brig Sea Bells, Whaley, for do. John Pierce, Melville, for Charleston.

Fears are entertained for the safety of the barque Atlas, Capt. Bartlett, from Hong Kong Aug. 11, for N York. She was spoken of Celebes, no date given. The A. is an A 1 iron vessel 423 tons register, built at Kennebunk, Me, in 1856, where she is owned.

Barque Jacob Prentiss, (of Yarmouth) Capt. Charles Garcelon, sailed from Shields, E, Sept. 15, for New London, and was seen 8 days after off Bona Island, (no date given) a good barque of 393 tons.

DARING ROBBERY OF HARDEN'S EXPRESS, IN PROVIDENCE—THE IRON SAFE AND CONTENTS CARRIED OFF.

We learn from Earl & Co.'s Express, that the office on Dorrence street, corner of Shilde street, Providence, R. I., was entered this morning through the door on Middle street, by means of false keys, and Harden's iron travelling safe, which arrived at the office about 4 o'clock this morning, was carried off together with the contents, the precise matter or amount of which cannot be known until they hear from their agent in New York.

A large trunk in the office, used in the transportation of packages and parcels, was broken open, and the contents strewn about the floor. Among the articles in this trunk was a bag containing $6000 in gold, a bag containing $1000 in silver, belonging to Gorham & Co., silversmiths, and two bags of cents. The robbers carried off the bags of cents and that of silver, but left the bag of gold on the floor.

The safe was subsequently found in Atwill's Avenue, the distance of 1 1-1 miles from the office, broken open, and the pouch cut open and robbed of its contents.

A watchman is employed in the office throughout the night time, and upon the arrival of their express for New York in the morning, it is customary for him to immediately deliver to the periodical dealers near by such papers as arrive for them, and while engaged in that service, which requires but about twenty minutes, he leaves the messenger or driver in the office. This morning, however, but they both went from the office on the wagon together, leaving the office without any one in it for not over twenty minutes, and it was during that brief absence that the robbery was committed.

The messenger immediately telegraphed to their agent in New York to learn the contents of the safe, and will use their utmost endeavors to ferret out the robbers and recover the property.

Rumors has it that money and papers to the value of about $50,000 were stolen, but a messenger, who arrived here this afternoon, believes this to be an exaggeration.

From New Mexico.

St. Louis, Monday, Jan. 17, 1859.

The New Mexican mail of the 27th ult. reached Independence yesterday. It was packed on mules the most of the way in consequence of bad roads. The New Mexican Legislature elected Augustus Demerell public printer, vice S. M. Most. Nothing had been heard of the missing Neosho mail party. Gov. Reucher, in a special message, says that the armistice with the Navajos amounts to nothing, as it does not provide for the surrender of the murderers of Major Brooks's servant, nor payment for him. The Superintendent of Indian Affairs and the Commander of the Military Department say they will consent to peace upon the terms of the armistice. They will require the return of the private and public property, taken during the war, and the establishment of a line east of which the Indians shall neither plant nor graze stock.

It appears, from the best statistics, that in the last four years the risk to each passenger of being killed in going one mile was: By railroad in France, one in one hundred million; by railroad in England, one in sixty-five million three hundred and sixty thousand; by railroad in New York, one in forty-seven million one hundred and sixty four thousand; by Atlantic steamships, one in two hundred and forty thousand.

FRENCH LUNAR DROPS.

The only certain and safe remedy for females in all cases of Suppression or Irregularities, no matter from what cause: in all recent cases they are warranted to give relief. The Drops are the result of an extensive practice, and not discovered by accident. To eulogize their virtues would not add to their merit; we would only say, try them. They are invariably certain to regulate the female system, and can be taken without hazard. For consultation on all diseases incident to females, apply personally, or by letter, to

Miscellaneous.

Jordan's Patent Double Runner Skates.

JUST received and for sale by the subscribers, Jordan's Patent Double Runner Skates.

Reasons why the Double Runner Skate have the advantage over the single runner are these:—

1st—It gives a confidence to the learner at once.

2d—It gives a more graceful movement and fascinating finish to the skater.

3d—It will skate faster than the single runner.

4th—It can be used as long again without fatigue or pain to the ankle.

5th—Owing to the bend of the skate and the arrangement of the tackle, it is not binding to the foot, and does not prevent the free circulation of the blood.

6th—Persons having tender feet, can use them with great pleasure and ease.

7th—It can be used by those who have given up skating and wish to resume the pleasure, without fear of breaking their limbs.

AMERICAN AND FOREIGN PATENTS.

R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
NO. 76 STATE, OPPOSITE KILBY ST., BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Bonds, Assignments and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patens or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through it inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents

All necessity of a journey to Washington, to procure a patent, and the usual great delay there are here saved inventors.

TESTIMONIALS.

"I regard Mr. Eddy as one of the *most capable and successful* practitioners with whom I have had official intercourse.
CHAS. MASON," *Commissioner of Patents.*

"I have no hesitation in assuring Inventors that they cannot employ a person *more competent* and *trustworthy*, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the Patent Office.
EDMUND BURKE,"
Late Commissioner of Patents.
Boston, February 8, 1858.

"Mr. R. H. Eddy has made for me THIRTEEN applications, on all but ONE of which patents have been granted, and that one is *now pending*. Such unmistakable proof of great talent and ability on his part leads me to recommend *all* inventors to apply to him to procure their patents, as they may be sure of having the most faithful attention bestowed on their cases, and at very reasonable charges. JOHN TAGGART."

From Sept. 17th, 1857, to June 17th, 1858, the subscriber, in course of his large practice, made, on *twice* rejected applications, SIXTEEN APPEALS, EVERY ONE of which was decided in *his favor*, by the Commissioner of Patents.

Maryland State Lotteries

R. FRANCE & CO., MANAGERS.

After the exposure of the many Bogus Lottery concerns throughout the country, purchasers of Tickets will of course feel timid in ordering. Those who desire to purchase would be foolish to send money to any Lottery concern without knowing that they will have fairness in drawings and schemes, and feel that the Managers are responsible for prizes.

The Maryland Lotteries have now been drawing over 40 years. Millions of dollars have been drawn in Capital Prizes, from $10,000 up to $100,000, and the fortunate holders, without a single exception, paid.

These are the Lotteries to order Tickets in. The Managers are fully responsible for every Prize sold without any security; and yet they have given Bonds to the State of Maryland, for half a million dollars to secure prize holders. They don't promise you $70,000, $80,000 or $100,000 for $10; but they give you fair and honest schemes, as good as can be made for the price of the Tickets.

THE LIVER INVIGORATOR.

PREPARED BY DR. SANFORD.

Compounded Entirely from Gums,

IS One of the best Purgative and Liver Medicines now before the public, that acts as a Cathartic, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

SANFORD'S LIVER INVIGORATOR

The liver is one of the principal regulators of the human body; and when it performs its functions well, the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the LIVER—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his duty, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING the BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, and, WHAT IS better, prevented, by the occasional use of the Liver Invigorator.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently, and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

One dose of two teaspoonfuls will always relieve SICK HEADACHE.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves CHOLIC, while

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.

One dose, often repeated, cures CHRONIC DIARRHOEA in its worst forms, while SUMMER and BOWEL complaints yield almost to the first dose.

One or two doses cures attacks caused by WORMS in Children; there is no surer, safer, or speedier remedy in the world, as it never fails.

A few bottles cures DROPSY, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a BILIOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

☞ **Mix Water in the mouth with the invigorator, and swallow both together.**

THE LIVER INVIGORATOR IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures, almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst Jaundice or Dyspepsia to a common Headache, all which are the result of a **Diseased Liver.**

Price one dollar per bottle.

Joy to the Admirers of A FINE HEAD OF RICH GLOSSY HAIR

Talk of beauty, it cannot exist without a fine head of hair, then read the following, and if you ask more, see circular around each bottle, and no one can doubt.

PROF. WOOD'S Hair Restorative.—We call the attention of all, old and young, to this wonderful preparation, which turns back to its original color, gray hair—covers the head of the bald with a luxuriant growth—removes the dandruff, itching and all cutaneous eruptions—causes a continual flow of the natural fluids; and hence, if used as a regular dressing for the hair, will preserve its color, and keep it from falling to extreme old age, in all its natural beauty. We call then upon the bald, the grey, or diseased in scalp, to use it; and surely the young will not, as they value the flowing locks, or the witching curl, ever be without it. Its praise is upon the tongues of thousands.

The agent for Prof. Wood's Hair Restorative in New Haven, received the following letter in regard to the Restorative, a few weeks since:

DEEP RIVER, Conn., July 23, 1856.

Mr. Levenworth—Sir: I have been troubled with dandruff or scurf on my head for more than a year, my hair began to come out scurf and hair together. I saw in a New Haven paper about Wood's Hair Restorative as a cure. I called at your store on the 1st of April last, and purchased one bottle to try it, and I found to my satisfaction it was the thing; it removed the scurf and the hair began to grow, it is now two or three inches in length where it was all off. I have great faith in it. I wish you to send me two bottles more by Mr. Post, the bearer of this. I don't know as any of the kind is used in this place. You may have a market for many bottles after it is known here.

Yours with respect, RUFUS PRATT.

PHILADELPHIA, Sept. 9, 1856.

Prof. Wood—Dear Sir: Your Hair Restorative is proving itself beneficial to me. The front, and also the back part of my head almost lost its covering—in fact BALD. I have used but two half pint bottles of your Restorative, and now the top of my head is well studded with a promising crop of young hair, and the front is also receiving its benefit. I have tried other preparations without any benefit whatever. I think from my own personal recommendation, I can induce many others to try it. Yours respectfully
D. R. THOMAS, M. D.

THE subscribers would respectfully call the attention of persons building, or about to build, to the above composition, which they have used to the entire satisfaction of many persons in this community who have laitey put roofs upon old, as well as new buildings of every description. These roofs have been pronounced by Architects, Builders, and others who have a knowledge of their merits, to be of greater durability, and to be possessed of fire and resisting properties to an extent beyond that of any roof now in use. ☞ The materials of which these roofs are composed are not affected by temperature. ☞ They will not expand or contract with heat and cold, like roofs of tin or tin. ☞ The cost is much less than any other fire proof roof in use. ☞ They are not exerted by the jar of machinery. ☞ In case of injury, the roof is so easily and cheaply repaired. ☞ We not only state these facts, but can substantiate them, by referring to those who have patronized us for the last two years, and would request all those who are about to put on new roofs, either to new or old houses, to call upon us before looking elsewhere, when we think they will be satisfied that we can furnish them with the best roof now in use. HOWARD ASSOCIATION, PHILADELPHIA.

A Benevolent Institution, established by special enactment for the relief of the sick and distressed, afflicted with Virulent and Epidemic diseases.

THE HowardAssociation, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a **Charitable Act** worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their form and to give **Medical Advice Gratis**, to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty to **Furnish Medicines Free of Charge.** It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors of the Association, in their annual report upon the treatment of sexual diseases, for the year ending July 1st, 1858, expresses the highest satisfaction with the success which has attended the labors of the consulting surgeon in the cure of Spermatorrhœa, Seminal Weakness, Impotence, Gonorrhœa, Gleet, Syphilis, the vice of Onanism or self abuse, &c., and order a continuance of the same plan for the ensuing year.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort, have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important but much despised cause.

An admirable Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.

Address, for Report or treatment, **Dr. George R. Calhoun,** Consulting Surgeon, Howard Association, No. 2 South Ninth street, Philadelphia, Pa. By order of the Directors.

A CARD TO THE LADIES.

DR. DEPONCE'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficious in correcting regulating, and removing all obstruction from whatever cause.

All medical men know, as well as many others that no female can enjoy good health, unless one is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale at 132 Thames street, corner Church street, and at 12 Washington Square, opposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. Ladies by enclosing $1 to *STURGIS & CO.*, Box 801, Newport Post Office, can have the Pills sent confidentially) by mail to any part of the city or country a26—

TO THE LADIES—The celebrated Dr Hughes particularly requests all ladies who may need a medical or surgical adviser, to call at his rooms, No. 13 Howard street, Boston, which they will find arranged for their especial accomodation.

Dr. Hughes having devoted over 18 years to this particular branch of the treatment of diseases peculiar to females, it is now conceded by all, (both in this country and Europe,) that he excels all the other known practitioners in the safe, speedy and affectional treatment of all female complaints.

Dr. Hughes French **Renovating or Female Monthly Pills** are to be had genuine only at this office.

These pills are unrivaled in efficacy and superior virtues in regulating all female irregularities. Their action is specific and certain, producing relief in a very short time. They are acknowledged to be the best in use.

The Dr. cautions the public to beware of impositions that are being practised by advertising a spurious article under some spurious or nefarious name. They are entirely useless, having been got up by miserable pretenders, who are entirely ignorant of the efficacy of medicines.

All who are in pursuit of the genuine article, had better call on the old doctor at his office, where they will be sure of getting the genuine—the only place in Boston where the genuine is for sale.

These pills can be sent to any part of the country, with directions.

The best of accommodations furnished for one sex, with kind and attentive nurses, if they wish, at a reasonable rate.

This office is strictly private, with special apartments for ladies, and is so arranged that it is impossible for patients to come in contact with each other.

CONFIDENTIALLY to the afflicted.—Dr. J. B. Hughes still continues his old establishment, 21 Howard street, Boston, where he can be consulted on all private complaints. All persons in any way afflicted may rely on a sure and speedy cure being performed.

Dr. Hughes has for a number of years paid particular attention to the study and practice of private diseases, and so perfect has he become acquainted with them, that, without boasting, he will warrant an effectual cure in the shortest possible time, no matter how long standing the case may be

In offering the result of his long study and practical experience to the afflicted, he is governed by humanity only, for so long have they been deceived by miserable quack nostrums, that it is time that some healthy mode of practice should be introduced.

The old doctor professed to be eminently skillful in curing Gonorrhœa, Gleet, strictures, syphilis in all its stages, primary, secondary, tertiary, or hereditary scrofulous weakness. Internal emissions, general debility, impotency, and all diseases of the urinary organs. The doctor solicits a call from all who may be afflicted with any such disease, feeling confident of success, and at a great saving of time and money to his patients.

The doctor can be consulted by letter, if the disease is accurately described, medicines will be immediately forwarded, carefully concealed.

Please remember the name and No., as Dr. Hughes has nothing to do with any other office but 13 Howard st.

Medicines.

DR. DOW'S GRAND MEDICAL HOUSE AND OFFICE,

NO. 7. ENDICOTT-ST., BOSTON. NO. 7.

Established for the permanent cure of all Private Diseases and the Suppression of Quackery.

DR. DOW, so well known for the last fifteen years in this city, where he has confined his practice to the treatment of mercurial, syphilitic and other diseases of a private nature, is consulted above, from nine in the morning till seven in the evening. Patients must call during office hours. Office not open on Sundays.

All chronic and difficult cases, such as have existed for years, are completely and permanently cured in the shortest possible time by the Doctor's improved course of treatment.

MEDICAL ADVICE.—As it is always important to obtain the services of an experienced and skillful physician call on the celebrated Dr. Dow, No. 7, Endicott street.—*Med. and Surg. Jour.*

DR. DOW will say nothing of his qualifications as a Physician and Surgeon, being a graduate of the University of Pennsylvania Licentiate of the State Medical Society of N. Y., and for more than twelve years a practitioner of this city, during which time he has no doubt cured more of those difficult and chronic cases (such as nothing but practical experience can ensure success) than by other physicians in Boston.

By his late improved course of practice, Gonorrhœa, Gleet, Strictures, and other local affections of the urinary and seminal organs, are cured in a very few days without mercury, regard to diet, or fear of exposure.

SECONDARY SYPHILIS, &c.

Scrofulous affections, ulcers in the throat or neck, nodes and caries of the bones, eruptions on the skin, and every impurity of the blood thoroughly and completely eradicated Persons afflicted with any private complaints should call as early as possible after contracting the disease, as much time and money may be saved thereby.

TO YOUNG MEN.—You who are troubled with seminal weakness, generally caused by a bad habit in youth, the effects of which are nocturnal emmissions, pains and dizziness in the head, forgetfulness, sometimes a ringing in the ears, weak eyes, &c., terminating in consumption or insanity, if neglected, are speedily and permanently cured by Dr. Dow.

TO MIDDLE-AGED OR EVEN OLD MEN, whose procreative organs have become inactive or weakened by the excesses of any kind, but especially bad habits in youth, Dr. DOW would respectfully say that from the extensive practice which he has had in treating the above complaint for over fourteen years, he is enabled to guarantee a perfect cure in all cases; that is, a restoration of those organs to their natural and healthy state. Hardly a day passes that he is not called upon to cure the above complaints, and he is happy to say that his course of treatment has invariably effected a speedy cure.

Beware of all kinds of Exhilerating Cordials, as they are of no use.

To the unhealthy, the mere mention of the name of the far-famed and justly popular physician, Dr. Dow, that he can at all times be found at home that he is surpassed by none in curing all forms of disease, however protracted, ill-treated, or mercurily affected, is a consolation to his patients, and an honor to himself.—*Balt. Amer.*

All afflicted with private complaints, if possible, should consult Dr. Dow, whose medical education is not surpassed by any physician in the country. In his skill, honor and integrity, all may rely with safety, while most all of the medical practitioners are without honesty or responsibility, their pretensions being grounded in ignorance and assumption.—*Republican Argus.*

There are a great many young men whose cases have become very difficult of cure, either from neglect or ill-treatment. We would advise all such to call on Dr. Dow, of Boston, whose practical experience in certain diseases no doubt exceeds that of any other physician in America.—*Journal of Health.*

Dr. Dow consults with physicians, as usual, on difficult chronic diseases. Charges reasonable.

TO FEMALES.

All diseases peculiar to females, such as suppressions, irregularities, &c., speedily and effectually removed. The efficacy of his remedies for the cure of the above affections, has been well tested in his extensive practice for the last fifteen years in this city, and never was known to fail in effecting a cure where the directions were followed a reasonable time.

RICORD'S, VELPEAU'S CHVALE'S ACTON'S CURLING'S and the venereal hospital practice of Paris and London. As some persons afflicted with seminal debility and diseases of the Genito-urinary organs may not be aware of the fact, Dr. LARMONT takes this mode of informing them that he is the only graduate in New York City who is exclusively treating and curing these diseases, and whose connection with the European hospitals enable him to adopt the latest and most radical treatment, curing the oldest and most severe cases. All who have been unsuccessfully and barbarously treated with Mercury, Copaiba, Injections, Cauterization, Quack Specifics, Antidotes, &c., will be presented with proofs by Dr. Larmont that he will permanently cure them in the shortest possible time. Patients have private and separate rooms. Those living at a distance can be cured at home, through the express and mail, as well and privately as at the office; as the medicines are convenient, pleasant, and do not cause sickness.

Dr. LARMONT'S PARIS AND LONDON MEDICAL ADVISER AND MARRIAGE GUIDE—20th edition, nearly 400 pages, 100 electrotype pictures, both $1. Sold and mailed to any address, free of postage, by the author, and W. A. Townsend, 222 Broadway.

Among its contents is the anatomy of the sexual organs of the male and female, all the diseases and weaknesses, latest discoveries in reproduction, all the known means of presenting conception, quacks, their recipes and specifics, the author's unequalled Paris and London treatment of Gonorrhœa, Gleet, Strictures, Syphilis, primary and constitutional Emissions, Impotency, &c.—At 32 Mercer street, corner Spring, opposite St. Nicholas Hotel, New York. Address letters to box 844, New York Post Office.

J. RUSSELL SPALDING'S

ROSEMARY

Combines everything required to give richness, beauty and elegance to the hair. It removes dandruff, and relieves headache. To force the growth, to prevent falling off, and restore hair to bald places, it has been used with positive success. It is presented to the public in an open, candid manner, stating, as the name indicates the leading ingredients, viz:—

Rosemary and Castor Oil,

both common and well known articles.

The following persons can be found, and are well known. We give a few extracts from their opinions about the

ROSEMARY.

ABRAM A. TRIAN, Esq., Rotterdam, N. Y., writes—"Am 75 years of age, and was bald 35 years; have used two bottles of your Rosemary, and my hair is now two inches long."

REV. SYLVANUS COBB, Boston Mass.—"We had rather pay for it than have other preparations for nothing," &c.

MRS. B. TAFT, Cambridge, Mass.—"Have used your Rosemary with great success in keeping my hair black, as age was turning it fast."

MR. DANIEL B. CONNOR, Boston, Mass.—"Eight months ago I was bald—my hair is now long and healthy—I know your Rosemary has forced it to grow," &c.

OSSIAN E. DODGE, Esq., Vocalist, now of Cleveland, Ohio—"It gives a rapid growth and dark glossy texture, and does not soil the hat or pillow in the least; I know of nothing so valuable for the hair."

FRANCIS ADAMS, Esq., Boston, Mass.—"It is the best thing for children's hair—the ladies are delighted with it," &c.

REV. C. W. DENISON, Buffalo, N. Y.—"I find it excellent for the hair."

MRS. L. SWEENY, Boston, Mass.—"It restored my hair to bald head, and from grey to black color," &c.

HON. C. HUNT, Lowell, Mass.—"To remove dandruff, and keep the hair moist and glossy, we have never found anything so good."

M. HOFFMAN, Esq., (Editor of German Weekly,) Boston, Mass., and his wife Eva, say—"It causes hair to grow vigorously—gives beauty and splendor—is better than European articles," &c.

C. H. STOCKING, Esq. (Trinity College,) Hartford, Ct.—"By using it my hair turned from a sandy to a brown color; it was naturally dry, but is now moist."

A. F. WOOD, Chemist, New Haven, Conn.—"I saw a fair head of very dark hair on a man that six weeks ago was bald. He had used nothing but your Rosemary," &c.

RETIRE HOUSE, Boston, July, 1857. "I had no more hair on my head than an infant, seven months ago. It is now thick, healthy, growing rapidly, and of a fine, dark color. I can positively say that J. RUSSELL SPALDING'S Rosemary, obtained at 27 Tremont street, opposite the Museum, has produced this change."—SARAH J. LORD.

J. WISNER'S Washing Machine, Patented Sept. 26th, 1854, is a large tub with zinc fitted on the bottom, also on the under side of the rubber. It stands on a stool, and weighs about 25 lbs; is simple and handy and has been thoroughly examined and tried by thousands at the West within the past year, who pronounce it to be the best labor saver ever offered to the public.
